* At some sites, full-time-equivalent employment figures are used.

** Numbers may differ from those reported by NNSA/DP due to data call definition. DP captures only M&O prime contractors and uses full-time-equivalents for the labs.

*** NE program includes contractor employees at the Advanced Test Reactor (ATR). Note, on April 1, 2000, the National Nuclear Security Administration was established thereby transferring ATR contractor employees to the Office of Naval Reactors.

Note 1: Beginning in FY 2000, the Pittsburgh Naval Reactors and Schenectady Naval Reactors are included within the Other category under Other Sites. In prior years, they were included within the NE program.

Note 2: Management contractor team consists of those prime contractors performing defense and certain non-defense work that historically was done under a management and operating contract. At some sites, subcontractors are also included.
